

SOUTHLAKE CORP

MAS-2&3 MICRO ADJUSTABLE STAND

For

MOUNTING OF *S.P.I.* RANGE OF SIDE SEAM APPLICATORS

STAND LOWERED

(Shown with applicator for clarity - not included)

STAND RAISED

The MAS-2&3 Micro Adjustable Stands are designed to support and provide operational adjustment for the range of *S.P.I.* side Seam applicators, to a variety of machines. X & Y micro adjustable axes are provided to allow full and accurate adjustment for the respective applicators. The stands incorporate a flip up facility to aid setting & cleaning.

A quick release applicator mounting plate is provided to allow easy and simple removal of the applicator from the stand without upsetting the stand settings.

Main Features

- Rigid construction with simple X & Y adjustment.
- Quick release applicator mounting bracket.
- Spring loaded to allow for up & down positions.
- MAS-2 (picture) suitable for Hauni Protos type machines.
- MAS-3 supplied with additional stand platform to raise height to suit Molins MK8 & 9 Making machines & DAPTCM.
